

Door Control Services, Inc.

DCS Role in “Extreme Makeover: Home Edition”

Door Control Services, Inc., based in Ben Wheeler, Texas, was honored to join with ABC’s “Extreme Makeover: Home Edition”. Working with local East Texas builders, volunteers, and other vendors, Door Control Services tackled the challenge of building a new home in East Texas for a deserving family. “I was amazed to see firsthand how our community came together for a common goal and constructed a home in such a short period of time,” noted Greg Smith, Door Control Services Vice President of Sales. “I am grateful that Door Control Services had the opportunity to help change a family’s life.” The company donated and installed an automatic door which eased access for the family who has several special needs children. ABC’s “Extreme Makeover: Home Edition” East Texas aired on ABC on Sunday, May 2, 2010. Visit our website, www.doorcontrolservices.com, and click on the “Extreme Makeover: Home Edition” logo to view the episode.

Door Control Services, Inc. is an industry leader in automatic, manual, revolver and specialty door parts, service, and installation. Since 1973 Door Control Services, Inc. has worked to build the most comprehensive automatic and manual door company in the industry. With over fifty AAADM certified technicians and sales personnel on staff, we have the people, products and professionalism to install and maintain your automatic and manual doors. Door Control Services welcomes the challenge of providing unequalled automatic and manual door service. Customer service is our pride.
